Scan the QR code or Log in to <https://www.esgamingpc.com/user-manual1.html> to download the control software.

SHADOW's software is the official PC client software.
 1. The installer must be run as Administrator during installation.
 If an older version of the software exists on your device:
 a. Fully uninstall the legacy version
 b. Remove the original installation folder
 2. We recommend User retain the default installation directory.
 Should custom modification of the installation path be required for special scenarios, the file path must not contain any Chinese characters.
